HOSHIZAKI MODULAR CRESCENT ICE MACHINE WITH B500 STAINLESS STEEL BIN, UP TO 495KG (1080 IBS), ~ KMD-470AJ & B500

For special pricing on volume orders, please contact us via WhatsApp below.
"Existing customers who have made purchases in the last 6 months enjoy the discounted price."

DIM: W762 x D695 x H825 mm

FEATURES :

- Individual premium crescent cube with no ice bridging.
- Exceptionally hard crystal clear cubes that melt slowly.
- Slide in air filter at front for easy cleaning maintaining performance efficiency.
- Double-sided stainless steel evaporator for all water conditions produces more ice in less cycles.
- Snap in water tank design - easy to remove for sanitization.
- Durable stainless steel exterior.
- Low water electrical consumption.
- Flush mount to rear wall.
- Good in hard water areas.

HOSHIZAKI SUSHI SHOWCASE 2100MM - HNC-210BE-(L/R)

W2100-D345-270 mm

- Plate space on top of unit, 5.6 inches.
- Stable humidity and temperature levels are maintained instead of forced air circulation methods that dry out and ruin displayed sushi.
- Large diameter 1 inch drains at front.
- Larger front to back interior – 11 inches.
- Interior floor has a radius at all four sides.
- Self-contained refrigeration unit – easy to install.
- Compressor is located on the right-hand side (when facing the front of the sushi cabinet).
- Condenser airflow is in the back and out the side.
- Large diameter upper evaporator with tin plating.

- Larger condenser face area improves cooling performance.
- Solid base food plates with radius groove to fit sushi foods.
- Base food plates can be turned upside down and used to improve cooling performance.
