FAGOR ELECTRIC RANGE SOLID TOP WITH STAND ~ C-E910

For customized pricing on projects or volume quantity purchases, please do not hesitate to contact us via the WhatsApp button below.

DIM: W930 X D800 X H850 mm

FEATURES

- Surface tops manufactured in 2mm thick AISI-304 stainless steel, designed to prevent liquids split from the pans from penetrating into the cooker
- Laser-cut joints, automatic welding and polishes
- Screws hidden from view
- 4 heating elements beneath the 15mm thick cast steel fry-top, distributed so as to heat the 4 quadrants of the fry-top independently
- Power control for each heating element
- With interior fan to lower the temperature of the components
- Stamped surface with rounded corners for easy cleaning
- High temperature enamelled cast iron flue protector
- Access to the components from the front
- Machines with IPX5 grade water protection

SKU: C-E910

FAGOR GAS FRY-TOP (TABLE TOP) ~ FTG7-10VL

For customized pricing on projects or volume quantity purchases, please do not hesitate to contact us via the WhatsApp button below.

DIM: W775 X D700 X H290 mm

FEATURES

- Stamped surface tops manufactured in 1.5 mm thick AISI-304 stainless steel
- Laser-cut joints, automatic welding and polishing. Hidden screws.
- 12 or 15 mm thick mild steel fry tops which are quick-heating and high power
- Gas heated models with high efficiency burners (separate burners for whole-module models)
- Burner ignition through electronic spark igniter. With an access tube for manual ignition.

- Two separate heating areas
- Rapid reaction and recovery times of the fry-top temperature
- Fry tops are welded to the stamped surface top
- Stamped shell and its rounded edges and corners
- Fry top is tilted towards the front to make it easier to collect grease and liquids
- Fitted with an opening to collect cooking grease and a tray to store it which has capacity to store up to 2 litres depending on the model
- High-temperature enamelled cast iron flue protector
- Access to components from the front
- IPX5 grade water protection

FAGOR GAS RANGE SOLID TOP ~ CG7-10

For customized pricing on projects or volume quantity purchases, please do not hesitate to contact us via the WhatsApp button below.

DIM: W800 X D730 X H290 mm

FEATURES

- Surface tops manufactured in 1.5 mm thick AISI-304 stainless steel
- Laser-cut joints and automatic welding
- 10 mm-thick cast iron plate with rounded corners
- Fry-top dimensions: 800 x 580 mm
- Shield with 300 mm diameter
- Refractory brick inside for improved heat use and distribution
- Differentiated usage temperatures: 500 °C at the centre and 200 °C at the edges
- Double-crown burner and diffuser made of cast iron which guarantee an even distribution of heat from the flame
- Burner power: 8.4 kW
- Low-consumption pilot light and thermocouple located within the body of the burner for greater protection
- Flexible stainless-steel gas pipes, facilitating internal manipulation in order to make repairs easier
- Controls with a protective support base and system to prevent water infiltration
- High-temperature enamelled cast iron flue protector which is flush with the grates therefore improving manoeuvrability, supporting larger containers and increasing the usable surface area
- Access to components from the front

FAGOR ELECTRIC RANGE SOLID TOP ~ C-E911

For customized pricing on projects or volume quantity purchases, please do not hesitate to contact us via the WhatsApp button below.

DIM: W800 X D930 X H850 mm

FEATURES

- Surface tops manufactured in 2mm thick AISI-304 stainless steel, designed to prevent liquids split from the pans from penetrating into the cooker.
- Laser-cut joints, automatic welding and polishes. Screw hidden from view.
- Hot plates manufactured with 300 x 300mm cast iron, with 4 kW of power, hermetically sealed into the funnelled surface top.
- Power regulation by 7 position selector.
- Safety thermostat for each plate.
- Interior fan to lower the temperature of the components.
- Funnelled surface with rounded corners for easy cleaning.
- High temperature enamelled cast iron flue protector.
- Access to the components from the front.
- Machines with IPX5 grade water protection.
- “Fry-top” models with four heating elements beneath the 16 mm thick cast iron fry-top, distributed so as to heat the four quadrants

of the fry-top independently.
- Independent thermostatic control for each heating element. This allows the user to work with different temperature gradients on the fry-top.

FAGOR GAS COUNTERTOP CHARBROILER ~ B-G710

For customized pricing on projects or volume quantity purchases, please do not hesitate to contact us via the WhatsApp button below.

DIM: W800 X D730 X H290 mm

FEATURES

- Stamped surface tops manufactured in 1.5 mm thick AISI-304 stainless steel
- Laser-cut joints and automatic welding. Hidden screws
- Mild steel grills, dismountable without the need for tools, in 170 mm wide sections
- The mild steel grills are reversible, with different finishes on each side
    - Tilted and grooved with ridges for meat
    - Horizontal and flat for fish and vegetables
- Grills reach a very high temperature (400 ºC)
- Fitted with an opening to collect cooking grease and a tray to store it
- Machines are fitted with removable 130 mm high guards to prevent splashes, made of stainless steel
- High temperature enamelled cast iron flue protector
- Access to the components from the front
- Machines with IPX5 grade water protection
- Groups of high-efficiency tube burners, (a group of two burners for half-sized module models, two groups for whole module models)
- Independent control for each group of burners via a safety valve with a thermocouple
- Burners turned on using Piezo electric ignition
- The burners heat ceramic stones that sit on a supporting rack, so that they can then heat food on the grill
