PORTABLE COLD ROOM ~ DIM : W6000*2500*2500MM (20 X 8 X 8FT)

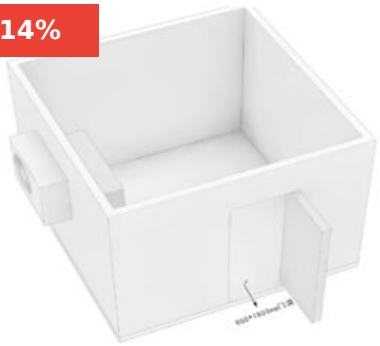

Custom Size available, please do not hesitate to contact us via the WhatsApp button below.

Portable Mobile Cold Room Benefits:

- **Mobility:** Can be easily moved and transported to different locations, allowing for flexibility in setup and usage.
- **Cost-Effective:** Generally more affordable to purchase and maintain than building a traditional cold room.
- **Quick Setup:** Requires less time and effort to set up compared to constructing a permanent cold room structure.
- **Space Efficiency:** Ideal for businesses with limited space, as they can be placed in smaller areas while still offering adequate storage capacity.
- **Temporary Storage:** Suited for temporary storage needs during events, emergencies, or renovations.
- **Rapid Cooling:** Equipped with efficient cooling systems that enable quick temperature reduction and maintenance.
- **Energy Efficiency:** Often designed with energy-efficient technologies, reducing operating costs and environmental impact.
- **Customizable:** Available in various sizes and configurations to meet specific storage requirements.
- **Reduced Maintenance:** Generally easier to maintain and repair due to their compact and modular design.
- **Expandability:** Some models allow for easy expansion by adding additional modules when needed.
- **Transportable Inventory:** Ideal for businesses that need to transport temperature-sensitive goods over longer distances.
- **Less Regulatory Hurdles:** May face fewer regulatory obstacles compared to constructing a permanent cold storage facility.
