PACOJET 4 WITH 1 SYNTHETIC BEAKER

For customized pricing on projects or volume quantity purchases, please contact us via the WhatsApp button below.
"Existing Customer with purchases in the last 6 months receive a special discounted price"

DIM : W204 X D365 X H497 mm

FEATURES :

- Pacojet 4 is an innovative commercially usable food processor.
- It can be used to process frozen food in one step into micro-puree and mousse without thawing.
- The core function of the device is Pacotizing®. Here, deep-frozen foods are processed into ultra-fine preparations without thawing.
- The intelligent features of the Pacojet 4 offer practical user guidance, and workflows canbe further standardized.
- **Large touchscreen** : The large touchscreen provides intuitive user guidance with an animated assistance feature. The user interface is designed for use in professional kitchen environments.
- **Save recipe settings :** Saving and loading settings for preparing your favorite recipes makes your kitchen even more efficient.

- **Standby feature :** During prolonged periods of inactivity, the Pacojet switches to energy-saving standby mode (the inactivity period can be adjusted), yet is instantly ready to use when you touch the display.
- **Easy cleaning process :** You can clean your Pacojet very easily in two stages using the Pacojet Cleaning Tabs.
- **Detection mode :** The detection modes of the Pacojet 4 aid in the correct use of the device and protect it against damage. The tool detection feature ensures that the correct tool has been properly attached. With the spray guard detection feature, you can be confident that the spray guard is positioned correctly. The fill level detection feature notifies you when the pacotizing® beaker is too full.
- **WIFI feature :** Connecting the Pacojet via WIFI allows the Pacojet Service Center to detect error sources quickly and easily.

ASTRA PEEL-A-TON FRUIT PEELING MACHINE - KA-750PM (LARGE FRUITS) ~ ASTRA KA-750PM

01 The only tabletop electric peeler of pineapples, melons and pumpkins
Pineapples, honeydew melons, muskmelons, pumpkins, etc. Already peeling tons of fruits / veggies ail over the world.

02 Highest yield rate of any peeler in its class
The new developed Japanese fiat Steel blade can handle the toughest skin of the pineapple. Compared to the conventional cutter, KA-720 achieves 150% higher yield rate (60% pineapple yield) and contributes significantly to cost reduction.

03 Wonky fruits / veggies are no problem
ASTRA’ s patented technology makes you able to peel wonky fruits / veggies beautifully just as normal shape. With adjusting the peeling depth, you can peel the only surface (zesting).

04 A better peel, a longer shelf life
The peeled surface is beautiful than you imagine. Peel-a-ton maintains the fruit integrity longer than hand peeling, and prevents both juice dripping and food spoilage.

05 Easy to clean and maintenance
Main unit can be washed with running water, and attached parts can be washed with dishwasher.
